From July 23 to 25, 2024, the Supreme Audit Institution (SAI) of Namibia hosted a performance audit refresher training course in collaboration with Afrosai-E trainers.

This three-day training was designed to enhance the skills and knowledge of SAI Namibia auditors, focusing on the latest methodologies and best practices in performance auditing.

The course, conducted by expert trainers from Afrosai-E, aimed to update participants on recent developments in performance audit techniques and standards. Through a series of interactive sessions, practical exercises, and case studies, the training provided auditors with a comprehensive review of essential concepts, including audit planning, evidence gathering, and reporting.

The successful completion of this refresher course is expected to significantly contribute to the enhancement of performance audit practices within SAI Namibia, ultimately supporting the institution's mission to ensure accountability and improve public sector performance.
