

OAG GOES PINK FOR BREAST CANCER AWARENESS MONTH

October is a significant month that shines a light on breast cancer awareness, and here at OAG, we're proud to be part of this vital initiative. Each year, we take the opportunity to show our support and reinforce the message that early detection can indeed save lives.

On Thursday, October 30, 2025, our dedicated team donned pink attire to stand in solidarity with those affected by breast cancer. This visible show of support not only brightened our office but also sparked meaningful conversations about the importance of regular check-ups and early detection. With statistics suggesting that one in eight women will face an invasive breast cancer diagnosis, our efforts underline the message that awareness can lead to action and, ultimately, hope.

To add a bit of excitement and further encourage participation, we hosted a raffle draw throughout the month, engaging our staff and fostering a sense of community. The atmosphere was filled with positivity and enthusiasm as we all came together for a common cause. We're thrilled to announce that we selected a lucky winner, and the excitement didn't end there—every ticket sold contributed to something far greater.

The funds raised from our raffle will be donated to the Namibian Cancer Association. This generous contribution will support their ongoing efforts to promote education, early detection programs, and care for individuals battling cancer. We hope that our small actions help make a significant difference in the lives of individuals and their families navigating this challenging journey.

At OAG, we believe that together, we can make an impact. Breast Cancer Awareness Month is not just about wearing pink; it's about fostering awareness, encouraging regular medical check-ups, and supporting those in need. We're grateful to everyone who participated, donated, and spread the word. Let's keep the conversation going and continue to lift each other, not just in October, but every month of the year.

Thank you for being part of our OAG community in this essential cause!
